Summary Analysis - December 2015

Electricity Supply Monitoring Initiative (ESMI) is a program being implemented by Prayas (Energy Group). It aims to improve transparency and provide evidence based feedback about the quality of electricity supply. Under ESMI, specially designed, mobile data enabled monitors are being deployed at each location and supply quality data is published daily at watchyourpower.org. ESMI was selected as a finalist for Google Impact Challenge, India, 2013, given to NGOs using technology for social impact. It was launched in March 2015 and currently covers over 50 districts across India.

This report presents a summary analysis of supply quality data from 129 locations (27 rural and 102 urban) for December 2015. This analysis covers three main parameters of supply quality: i) no supply hours, ii) number of interruptions, and, iii) evening hours of supply. The analysis is carried out for mega cities, other cities and rural areas. See notes at the end for more details and explanation.

In December 2015

53%

ESMI locations faced more than 4 hours of power outage per week

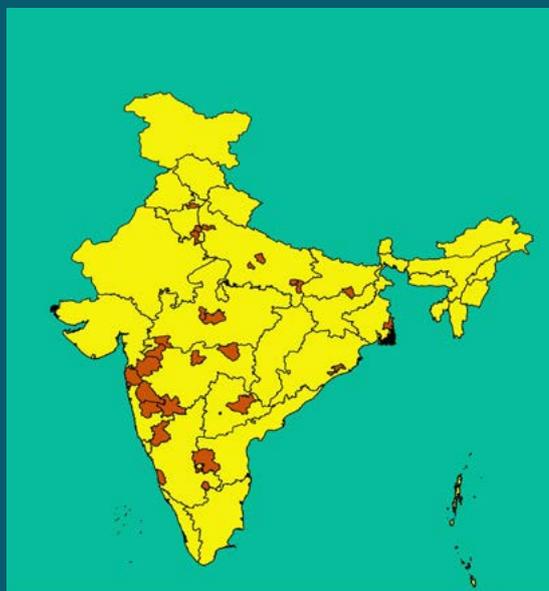

19%

ESMI locations faced more than 30 power supply interruptions

16%

ESMI Locations faced daily power outage of more than half an hour during evening hours

Map showing current ESMI Expanse at district level

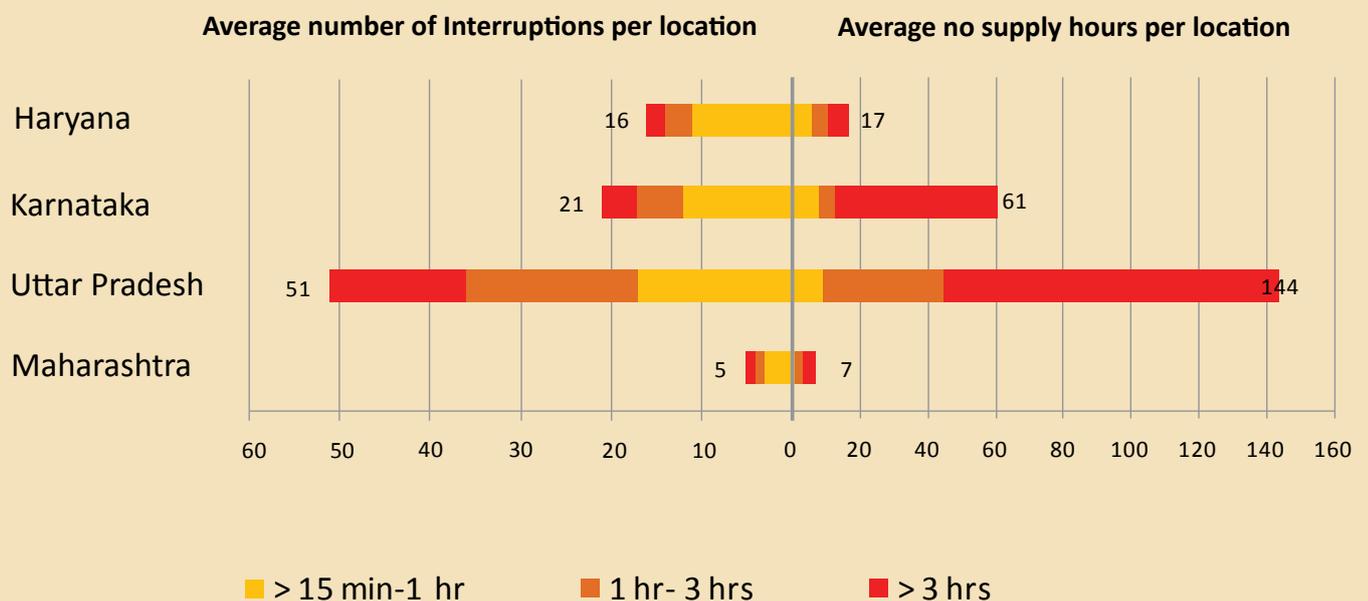

Supply Quality in Mega Cities - December 2015

Mega City	ESMI locations	Average number of interruptions per location		Average no supply hours per location
		Short 15 min-1 hour	Long More than 1 hr	
Chandigarh	5	1	1	1
Delhi	7	2	2	3
Pune	7	3	2	4
Hyderabad	6	6	2	7
Nagpur	4	3	3	18
Bengaluru	6	9	6	30
Kanpur	8	11	9	30

ID: AVGMC151201

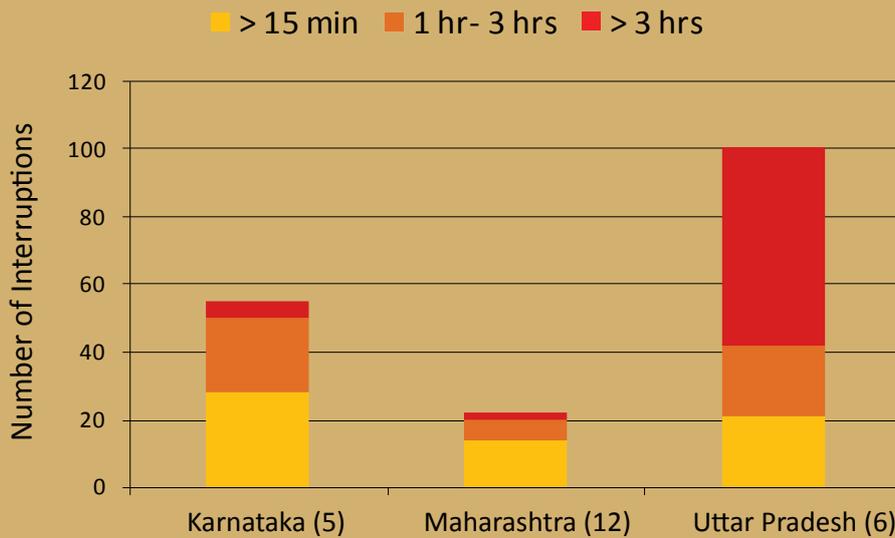

Supply Quality in Other Cities - December 2015

States	Cities covered	ESMI locations
Haryana	2	5
Karnataka	2	6
Uttar Pradesh	4	11
Maharashtra	5	23

ID: AVGOMC151202

Supply Quality in Rural Areas - December 2015

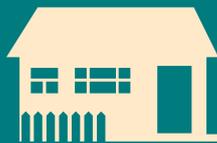

December 2015	Karnataka	Maharashtra	Uttar Pradesh
ESMI locations	5	12	6
Average no supply hours	76	39	448

ID:AVGGP151203

ESMI Locations Receiving Entire Six Hours Of Evening Supply

71%
Mega Cities

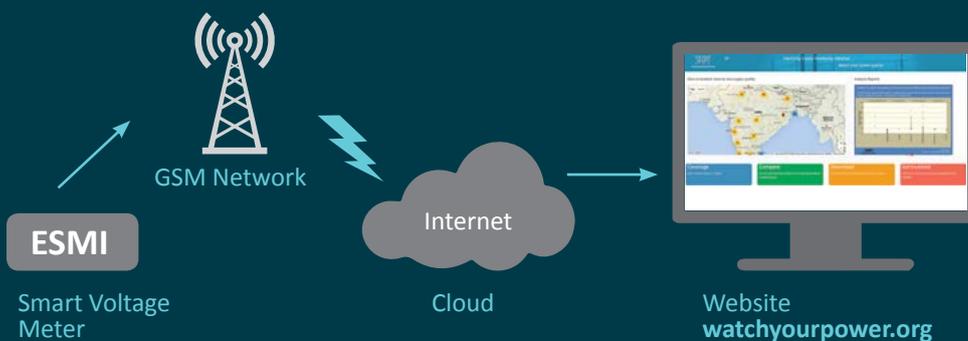

51%
Other Cities

29%
Rural areas

Evening supply hours considered is between 5 p.m. to 11 p.m. and this analysis ignores upto 2 hours of total evening supply interruptions during the month.

esmi@prayaspune.org

Notes:

- Analysis in this report covers locations with more than 90% data availability during the month
- Urban locations are State Capitals, District Headquarters and Other Municipal Areas.
- Mega Cities are urban locations as defined by Central Electricity Authority (typically with population more than 20 lakh)
- Other cities are urban locations that are not mega cities
- Rural areas are those governed by Gram Panchayats (village councils)
- Agricultural locations covered under ESMI are excluded from this analysis
- Analysis, except evening hours of supply, consider interruptions of more than 15 minutes.
